

EVR750 Series

Featuring the *ForceFlex* Hook

Dependable, Affordable Safety that's Easy to Install.

PIONEER's EVR750 Truck Restraint featuring the *ForceFlex* Hook eliminates the need for the dock attendant to leave the building and communicate with the truck driver. With the push of a button the EVR750, with the *ForceFlex* hook design, offers superior holding strength (in excess of 37,000 lbs.) yet will allow the truck to depart when the release button is pressed no matter the amount of pressure on the R.I.G. (Rear Impact Guard). The *ForceFlex* hook only releases when the dock attendant presses the release button. The unit's operating system is completely self-contained within a heavy-duty steel console for protection from dock debris, the elements and accidental damage. The EVR750 works without scheduled adjustments or risky manual effort by the operator. Periodic lubrication is the only maintenance necessary!

Warranty

PIONEER offer a 1-year warranty on structural members. A 1-year warranty is provided on mechanical and miscellaneous parts (including materials, labor, and freight).

Guarantee

PIONEER will provide our standard warranty or match any documented competitive warranty in the industry for comparable models. There is no fine print. *We build it and we guarantee it!*

Quality Dock Levelers

Long Lasting

Easy to Install and Operate

Safe

EVR750 Series

Features & Specifications

All PIONEER Truck Restraints meet 1998 ICC (R.I.G.) regulations.

Durability

- **Bolt-hole Pattern Design** provides optimal holding force.
- **Non-impact Operation** meets 1998 ICC (R.I.G.) regulations.
- Fully automatic unit provides **Restraining Force in excess of 37,000 lbs.**

Easy Installation

- **Installs** in approximately **1 hour**.
- Mounts directly to face of new or existing dock using **8 anchor bolts and 2 ground anchors**.
- **Recommended Factory Consultation** available for dock heights of less than 48" or 24" deep pits.
- **Optional Factory Provided Blockout** available for bumper projections greater than 4" including Edge-of-Dock Levelers).
- **Optional Steel Mounting Plate** for new construction and **Template for Pre-mounting Attachment bolts**.
- **Note:** As with all electrical equipment, this unit should not be immersed or submerged. Contact Pioneer for alternative solutions.

Simple Operation

- Fully automatic unit provides reliable operation with simple, **Push-button Control**.
- **Low-profile Restraint Housing** height and mounted location do not restrict access to dock by smaller vehicles such as UPS trucks, delivery vans, or pick-up trucks.

Safety

- **ForceFlex Hook** captures and holds all legal R.I.G.'s. **Positive Hold Feature** maintains R.I.G. contact with hook while allowing a free float with vertical truck movement.
- **Automatic Restraint ForceFlex Hook** is released and retracted effortlessly by dock attendant with just the touch of a button.
- The EVR750 **Communication System** includes inside/outside **Traffic Light Signals** and **Driver Warning Signs**.
- **Fully Enclosed Operating System** guards against physical and electrical overload.
- **Automatic Warning Alarm** sounds if the hook does not capture the R.I.G.

NOTE: When the Pit Leveler lip length exceeds 18" or Pit depth exceeds 20" notify factory.

Rugged. Dependable. PIONEER.
