

MVR Series

Mechanical Truck Restraint

**More than 50,000 lbs.
of Restraining Force!**

12" - 30" Operating Range

Competitively Priced and Easy to Install.

Pioneer's MVR Series makes dock safety affordable and easy. Featuring a high strength unit with a streamlined, low profile housing, the MVR provides a restraining force in excess of 50,000 lbs. Pioneer's rugged, solid steel housing is built to withstand weathering and truck impact,

Warranty

PIONEER offers a 1-year warranty on structural members. A 1-year warranty is provided on mechanical and miscellaneous parts (including materials, labor, and freight).

Guarantee

PIONEER will provide our standard warranty **or match any documented competitive warranty in the industry** for comparable models. There is no fine print. *We build it and we guarantee it!*

Low profile, mechanical MVR bolts directly to the dock face and ground - **installs in about 1 hour!**

Self-cleaning Spring and hook assembly requires no maintenance and only periodic lubrication.

Complete Visual Communication Package includes inside/outside signage for enhanced safety at the dock.

Quality Dock Levelers

Long Lasting

Easy to Install and Operate

Safe

Rugged. Dependable. PIONEER.

MVR Series

Features & Specifications

All PIONEER Truck Restraints meet
1998 R.I. G. (Rear Impact Guard) regulations.

Durability

- **Bolt Hole Pattern Design** provides optimal holding force.
- **Non-impact Operation** - meets 1998 R.I.G. regulations.
- Semi-automatic unit provides **Restraining Force in excess of 50,000 lbs.**

Easy Installation

- **Installs** in approximately **1 hour**.
- Mounts directly to face of new or existing dock using **8 anchor bolts and 2 ground anchors**. Recommended **Factory Consultation** available for dock heights of less than 48" or 24" deep pits.
- **Optional Factory Provided Blockout** available for bumper projections greater than 4" (including Edge-of-Dock Levelers).
- **Optional Steel Mounting Plate** for new construction and **Template for Pre-mounting Attachment Bolts**.

Simple Operation

- Using the **Activation Bar**, operator depresses and aligns hook with the R.I.G. bar.
- Semi-automatic unit rises to securely capture the R.I.G. Prior to truck departure, operator uses activation bar once more to push hook down and pivot it back into stored position.

Safety

- **Exclusive Pivoting Hook** captures and holds all legal R.I.G.'s: Allows for debris or snow removal within 4" of dock face.
- **Positive Float Feature** maintains R.I.G. contact with hook while allowing free float with vertical truck movement.
- **Unique Activation Bar** allows semi-automatic operation from top of dock. Eliminates need for dock personnel to leave area.
- Complete safety signage is standard. Inside/outside **Manually Operated or Automatic Light System** with safety signs is optional.

Note: When Pit Leveler lip length exceeds 18" or Pit depth exceeds 20" notify factory.

Rugged. Dependable. PIONEER.
