

SMART+™ Versa Panel

HMI Touch Screen Master Control Box

Single Panel Fully Integrates the Controls for the Dock Leveler, the Truck Restraint and the Overhead Door.

By combining the operations of multiple products, productivity will be improved and will eliminate dock worker confusion. The Versa Panel ensures proper sequential operation of dock equipment thereby enhancing safety.

Human Machine Interface

The HMI Touch Screen is intuitive, easier to operate than push button styles and offers real time feedback. There are no analog controls and fewer mechanical elements. The HMI panel offers a longer service life and state of the art LED flashing lights.

Single Power Source Results in Lower Electrical Installation Cost

The **SMART+™** Versa Panel requires the use of a single electrical run (meaning a single power source) to each dock location. Reducing the cost of electrical hardware and installation time.

Warranty

PIONEER Provides a 1-year warranty, on the **SMART+™** VersaPanel.

Guarantee

PIONEER will provide our standard warranty or match any documented competitive warranty in the industry for comparable models. There is no fine print.

Lock Out /Tag Out Feature Ensures Proper Safety Precautions will be Taken for Maintenance or Repair of Individual Units.

Management can easily study all alarms to see how the unit is being operated.

The unique Data Log allows supervisor's the ability to schedule routine maintenance while at the same time be apprised of misuse or possible problems.

Simple Operation

Simple, Intuitive Touch Screen menu allows unparalleled ease of control for all aspects of the equipment.

Operate icon is constant pressure. Normal and Below icon switches at a touch. Optional Lip Out works in conjunction with the Operate icon and is also constant pressure.
