Engineered for performance & built for durability, the EZ IMPACT™ Dock Bumper delivers smoother trailer engagement by eliminating hang-ups & reducing delays. Its advanced impact-absorbing design minimizes noise & shock transfer, creating a quieter, safer, & more efficient loading environment. Built to withstand demanding conditions, it provides long-lasting protection while helping reduce maintenance costs over time.

FEATURES & BENEFITS

- ✓ **Smooth Trailer Engagement**
Eliminates hang-ups and hitch points, improving efficiency while reducing product damage.
- ✓ **Quieter Dock Operations**
Dampen impact noise and reduce sound transfer, creating a safer, more comfortable work environment.
- ✓ **Advanced Impact Absorption**
Uses a reflex cavity to disperse energy, reducing stress on the dock and minimizing long-term damage.
- ✓ **Heavy-Duty Protection**
Built for high-traffic environments, withstanding repeated impacts and extending dock lifespan.
- ✓ **Lower Maintenance Costs**
Reduce wear and tear, minimizing repairs and downtime for long-term savings.
